SUMMARY

Full-stack and infrastructure engineer with 4.5+ years of experience in Java, Spring Boot, SAP, AWS, and CI/CD systems. Skilled in REST API development, cloud provisioning, and microservice architecture. Collaborative engineer with proven delivery across E-commerce and Telecom projects.

WORK EXPERIENCE

Infrastructure Engineer, 株式会社 We-Style, Tokyo, Japan **Sep 2024 – Present**

- Automated cloud provisioning using Terraform for AWS (EC2, IAM, RDS) and GCP, enabling consistent and scalable environments.
- Developed and managed CI/CD pipelines via Jenkins, reducing deployment time.
- Supported GCP use cases; implemented Ansible for configuration management.

Key Tech: Terraform, Jenkins, AWS, GCP, Akamai, Ansible, Git, VS Code

Full Stack Developer, Extentia Information Technology **Aug 2021 – Aug 2024**

- Independently led full-stack development for an E-commerce platform—from UI to backend.
- Built and deployed REST APIs, responsive UI, QR scanner, and scheduled email workflows.
- Managed AWS environments, production releases, and pricing data migration.
- Integrated SAP CAP to optimize HRMS performance and chatbot functionality.
- Delivered technical documentation and architecture flows for cross-functional teams.
- Awarded SPOT Award for end-to-end ownership of business-critical features.

Key Tech: Java, Spring Boot, SAP Hybris, SAP CAP, MySQL, AWS, JavaScript, Jenkins

Full Stack Intern, Gridlogics **Mar 2021 – Jul 2021**

- Developed a custom keyboard API integration for an internal search engine tool.
- Boosted app performance through dependency injection and optimized queries.

Key Tech: C#, ASP.net, .net core, Angular JS, TortoiseGit, MySQL

EDUCATION

Bachelor of Engineering (Computer Engineering) **Jul 2017 – Aug 2021**

Savitribai Phule Pune University, India

- Finalist – Smart India Hackathon (Software Edition, 2020)
 - Lila Poonawalla Foundation Scholar
-

HIGHLIGHTS

- **Technical Skills:** Full-Stack Development, REST API Design, Cloud Infrastructure, CI/CD Pipelines, SAP Integration
- **Languages:** English, Marathi, Japanese (Business), Hindi, Sanskrit
- **Certifications:** Google Analytics, Python for Data Science, Web Development
- **Work Ethic:** Adaptable communicator and autonomous contributor with a strong sense of responsibility and cross-cultural fluency.
